Map Information

Since mid-June a massive displacements of people started towards Herat City in Afghanistan. The displacement is involving several thousands of people. The ECHO's survey reports a high-level emergency, and a considerable increase in displaced people that made make-shift tents, staying in 40 degrees Celsius. The aim of the Rapid Mapping activation is to provide information and monitor the emergency for operational analysis in the field.

The present map shows the current situation in the area of Kahdestan (Afghanistan). The thematic layer has been derived from post-event satellite image by means of visual interpretation. The estimated geometric accuracy is CE90 or better, from native positional accuracy of the background satellite image.
