| <span style="border: 1px solid magenta; display: inline-block; width: 10px; height: 10px;"></span> Unchanged     |  |

*The crisis layer has been derived by the analysis of the situation on 13/12/2018 and on 20/12/2018*

**Consequences within the AOI**

Unit of measurement	Total in AOI			
	new	changed	no longer present	unchanged
Number of inhabitants	20422			
Tent camp	4.9	0.0	2.7	23.7
Tent	1051	0	495	5470

**Map Information**  
 The livelihoods of millions of Afghans are currently being decimated due to drought, which is affecting numerous provinces and regions across the country, and leading to the displacement of thousands of households that can no longer sustain themselves in their areas of origin, having had a failed harvest, lost livestock, and lacking water and livelihood opportunities. (Source: ReliefWeb) There is a risk of floods in the near future in the area where the IDP camps are located. The maps will be used to assess possible floods, the spread of the settlements and transport information if available.

The present map shows the current situation in the area of Kharistan (Afghanistan). The thematic layer has been derived from post-event satellite image by means of visual interpretation. The estimated geometric accuracy is 5 m CE90 or better, from native positional accuracy of the background satellite image.

**Relevant date records**

Event	Date	Situation as of	Date
Activation	15/06/2018	20/12/2018	20/12/2018
	29/09/2018	Map production	20/12/2018
