The crisis layer has been derived by the analysis of the situation on 03/11/2018 and on 13/11/2018

Consequences within the AOI					
Stable Population	Unit of measurement	Total in AOI			
		new	changed	no longer present	unchanged
Tent camp	ha	1.0	22.6	3.5	0.7
	No.	1149	0	2927	6161

Map Information

The livelihoods of millions of Afghans are currently being decimated due to drought, which is affecting numerous provinces and regions across the country, and leading to the displacement of thousands of households that can no longer sustain themselves in their areas of origin, having had a failed harvest, lost livestock, and lacking water and livelihood opportunities. Particularly hit are the provinces of Ghor and Badghis, who have generated new displacement in Qala e Naw, Badghis. (Source: ReliefWeb)

The present map shows the current situation in the area of Faristan and Shamal Daria (Afghanistan). The thematic layer has been derived from post-event satellite image by means of visual interpretation. The estimated geometric accuracy is 5 m CE90 or better, from native positional accuracy of the background satellite image.
