		new	changed	no longer present	unchanged
Tent camp	ha	1.4	11.4	0.1	1.7
Tent	No.	2900	3	131	3089

Map Information

The livelihoods of millions of Afghans are currently being decimated due to drought, which is affecting numerous provinces and regions across the country, and leading to the displacement of thousands of households that can no longer sustain themselves in their areas of origin, having had a failed harvest, lost livestock, and lacking water and livelihood opportunities. Particularly hit are the provinces of Ghor and Badghis, who have generated new displacement in Qala i Naw, Badghis. (Source: ReliefWeb)

The present map shows the current situation in the area of Bogilar and Jarahos (Afghanistan). The thematic layer has been derived from post-event satellite image by means of visual interpretation. The estimated geometric accuracy is 5 m CE90 or better, from native positional accuracy of the background satellite image.
